Pune Metropolitan Region Development Authority,
Pune.

Appointment of Individual Senior Consultant in Transportation Planning & Senior Consultant/ Consultant in Environment Planning for the consultation of PMRDA Structure Plan

The Pune Metropolitan Region Development Authority invites applications from highly qualified and experienced Transportation and Environment Planning professionals to serve as a Senior Consultant in Transportation & Senior Consultant/ Consultant in Environment Planning. This role is critical for the proposals of the PMRDA Structure Plan, ensuring it aligns with State-level Development goals and sustainable urban growth strategies.

Sr.No	Name of Post	Total Post	Tenure	Remuneration
1	Senior Consultant in Transportation Planning	01	6 Months	Rs.11,087/- Per day
2	Senior Consultant/ Consultant in Environment Planning	01	6 Months	Remuneration will be as per Experience
3	GIS Expert	02	6 Months	Rs.70,000/- per month
4	GIS Analyst	08	6 Months	Rs.45,000/- per month

- Eligible applicants can apply by submitting their applications to E-mail ad.pmrda@gmail.com, at the inward department of the office during office hours, or by post by 24th June, 2026 before closing hours (6:00 P.M.) Applications received after this date will not be considered. Please attach scanned copies of all relevant educational and experience documents.
- Shortlisted candidates will be called for an Interview round. The candidates must produce all certificates in original at the time of the Interview.
- Incomplete and delayed applications will not be considered.

1. Scope of Work for Senior Consultant in Transportation Planning

The **Senior Consultant in Transportation Planning** is required to assist the Town Planning Officer for preparing the Structure plan which is a long-term vision for movement of people and goods with an integrated land use approach for a region and provides a strategy and investment program to meet the vision. It aims to provide both intercity and intra-city connectivity across the designated region. The scope of work would be as follows: -

- To suggest transport and communication network to be provided in the Structure Plan by identifying new development areas that will generate future transport demand.
- To indicate the road infrastructure, other than the classified roads, to be provided
- To suggest regional/town level mobility plan containing inter and intra city connectivity on studying and analysing the existing Comprehensive Mobility Plan.
- To indicate appropriate road hierarchy to cater to the future transport demand, with feasibility of the alignment
- To analyse and review existing urban as well as regional transport projects and suggests measures for their effective utility.
- To suggest public transport network and facilities for future
- To prepare implementation plan including prioritisation of projects, funding as well monitoring mechanism
- To facilitate stakeholders' consultations
- To seek relevant updated data, in case of the data gaps, in order to perform the above activities
- To assist Town Planning Officer in the matters incidental to aspects of Transportation

2. Scope of Work for Senior Consultant/Consultant in Environment Planning

The **Senior Consultant/Consultant in Environment Planning** is required to ensure that land use strategies align with sustainability goals, legal regulations and climate objectives. The scope of work would be as follows: -

- i. To identify major environmental concerns of the area and suggest appropriate planning / strategic interventions for their mitigation
- ii. To review existing public utilities and services and suggest sites suitable for public utilities like solid waste management, sewage treatment and disposal
- iii. To suggest planning / strategic interventions to recharge/improve underground water level
- iv. To review and identify the areas which can be denoted as Hill Top Hill Slope (HTHS) on scientific basis.
- v. To suggest measures for preservation, conservation and development of areas of natural endowment and landscape.
- vi. To verify and correct mapping of all geographic features of ecological significance like lakes, rivers, nallahs (natural drains), forest areas, HTHS, eco-sensitive areas.
- vii. To suggest sites /areas suitable for regional / town level parks
- viii. To procure and analyse environmental data (secondary) to suggest measures for promoting harmony between human-made and natural systems.
- ix. To prepare implementation plan including prioritisation of mitigation measures, funding as well monitoring mechanism
- x. To prepare documentation explaining approach and methodology adopted for carrying out the above activities.
- xi. To facilitate stakeholders' consultations
- xii. To seek relevant updated data, in case of the data gaps, in order to perform the above activities
- xiii. To assist Town Planning Officer in the matters incidental to aspects of Environment

3. Scope of Work for GIS Expert:-

- i. Design the overall GIS strategy, data model, and standards aligned with structure plan and existing data.
- ii. Establish and oversee the central spatial database, metadata, and data governance framework for all layers.
- iii. Lead integration of transport, land use, and environmental datasets for network, accessibility, and suitability analyses.
- iv. Verify, manage, and maintain spatial and attribute databases related to land use, zoning, infrastructure, utilities, transport networks, and environmental layers.
- v. Specify, supervise, and interpret remote sensing and aerial imagery for base maps and change-detection studies.
- vi. Perform advanced spatial modelling and scenario comparison to support corridor selection and environmental impact assessments
- vii. Coordinate with PMRDA and other agencies to source authoritative datasets and ensure interoperability with existing systems
- viii. Review and assure quality of all GIS data and analyses produced by the project team, Consultants.
- ix. Integrate GIS with planning tools (CAD, remote sensing, other existing data)
- x. Generate GIS-based thematic maps for planning, policy formulation, and statutory submissions.
- xi. Support implementation of GIS-based planning portals, web GIS applications, and visualization tools.
- xii. To assist Town Planning Officer in the matters incidental to aspects of GIS.

4. Scope of Work for GIS Analyst:-

- i. Collect, clean, georeference, and standardize spatial and non-spatial data from various departments, and surveys.
- ii. Digitize transport, land use, and environmental features from imagery/CAD and maintain accurate GIS layers and attributes.
- iii. Execute routine spatial analyses (buffers, overlays, catchments, accessibility) to support transport and environment planning tasks.
- iv. Prepare, update, and validate GIS databases, checking for topology errors, missing fields, and data inconsistencies
- v. Produce clear thematic maps and graphics for reports, presentations, and stakeholder consultations as per approved templates
- vi. Process GPS/field data, support field verification, and incorporate corrections into the GIS database
- vii. Maintain basic documentation and metadata, and provide day-to-day GIS technical support to the Senior Consultant and team.
- viii. Ensure data accuracy, integrity, quality control, and version management.
- ix. To assist Town Planning Officer in the matters incidental to aspects of GIS.
